

Features

- 3 Digit LED Display
- Advanced S.M.D. Re-work station
- Very safe to work on fragile Components & PCBs
- Air volume linear adjustable
- Very Stable & Reliable
- Double vortex blower
- Rotating and soft air without wallop
- Rapid heating ; Only 3 seconds to reach the set temperature
- Intelligent induction, Auto cooling and Sleep function
- The system enters working modes quickly only by holding holder & It will enter standby status when not used for long

HEAVY DUTY

Specifications :

Power : 580 W

Temp., Range : 100 °C - 450 °C

Air Flow : 100 L / Min. (Max.)

Noise : < 78 dB

Dimension : 17 x 10.5 x 24 cm, Weight : 2.5 kgs
