

Features

- **Flagship Lead free S.M.D. Re-work station**
- Three regular channels : "CH1", "CH2" and "CH3"
- Each channel's Temperature & Airflow can be set
- Digital Display & Temp., Control
- Password protection and key-lock functions
- Real time operating magnetic switch
Unit enters sleeping mode when handle is placed on holder
- Auto sleeping function. Parameters can be set in sleeping state
- Closed loop sensor : Temperature can be controlled by zero voltage triggering modes, adjusted conveniently, accurate & is stable (not affected by airflow)
- Large power, rapid heating, 220 V AC Operating Voltage
- Brushless whirlpool motor, wide range and step-less adjustable airflow
- An automatic cooling system prolongs the life time of heating element and protects the handle

HEAVY DUTY

Specifications :

Power : 1000 W

Temp., Range : 100 °C ~ 500 °C

Airflow Range : 1 ~ 120 L/min

Dimension : 188 (L) x 245 (D) x 135 (H) mm

Weight : Apprx. 4 kgs.
